Outline:

Topic Sentence: In our opinion transgenders' rights are being violated and neglected for many reasons in Bangladesh

Reason 1: Lack of basic human needs

Evidence: More than 95 percent of transgenders are being deprived from basic human needs. [Dhaka Tribune, 2015]

Reason 2: Discrimination in job sectors.

Evidence: Transgenders are not getting proper job facilities due to the social discrimination. [Financial Express, 2015]

Reason 3: Lack of safety.

Evidence: Transgender men fear for their safety [Human Rights Watch, 2018]

Concluding Sentence: Following these reasons, we conclude that in Bangladesh, transgenders' rights are being violated and neglected.

Enough measures are being taken to ensure the rights of transgender community

In our opinion transgenders' rights are being violated and neglected for many reasons in Bangladesh. First and foremost, many transgenders lack basic human needs. For example, many transgender people are unable to get food, healthcare, education, etc properly. According to research, more than 95 percent of transgenders are being deprived of basic human needs [Dhaka Tribune, 2015]. Moreover, transgenders face discrimination as employers do not generally want to hire them. On 22nd September 2015, Financial Express published a report stating that transgenders are not getting proper job facilities due to social discrimination. The last reason is that transgender people lack safety. They are one of the most vulnerable groups in our society. A report from an international organization, Human Rights Watch finds that transgender men fear for their safety. Following these reasons, we conclude that in Bangladesh, transgenders' rights are being violated and neglected.
